COMMUNITY COLLABORATIVES

What is a Community Collaborative? At United Way of Greater Lorain County, we know that helping our community requires more than a band-aid as a solution, it requires a total systems change to tackle the root causes that are affecting our society.

To tackle these big issues, we work with local people and organizations to form [Community Collaboratives](#) that come together to align resources and solve problems no single donor, nonprofit, or government agency can accomplish alone.

Click the information button to learn more about what the collaborative accomplishes and which agencies are working together to do it.
